INNOVATION & TECHNOLOGY EXPO

FIRST RESPONDER TECHNOLOGY

The Innovation & Technology Expo is an event tour that aims to bring together emergency responders, technology developers, policymakers and researchers to promote effective technology implementation, market volume expansion, policymaking and knowledge-building. This first event is organised by the Netherlands Institute for Public Safety (NIPV) in collaboration with the International Forum to Advance First Responder Innovation (IFAFRI).

AUDIENCE

The event targets first responders (mainly firefighters), technology developers, policymakers and researchers.

PROFILE REQUIREMENTS

All companies offering technology for first responders are welcome to showcase their products.

COSTS

Costs for entrance, food and drinks are covered for international guests.

PRACTICAL INFORMATION

Date: October 16 - 17
Time: 10.00 - 17.00 CET
